The town of Hubbard, Ohio, is running itself. Both the Mayor and City Marshal are in jail, the former for intoxication and the latter for not obeying orders.

One of the shrewdest and most successful men on the turf says that there has been no such betting on horse races in years as there is at Saratoga at the present time.

The body of Lang C. Winston, a pioneer of Southern California, who disappeared from Pasadena last November, was found recently in Little Rock Canyon. He had perished in a snow storm.

Both the Silver men and the Republicans are now claiming John P. Jones. It would be a good idea for the Senator to settle the question of disputed ownership and define his boundary lines.

Mr. Frank, Small a gentleman in New York sends us a four column notice of Mr. William Cody with a request to publish it. If Mr. Small will send along the stereotypic plates express charges prepaid we will consider the matter.

The Enterprise, endeavoring to explain away the effect of the 470 votes polled at the Silver Party primaries, speaks of the strength of the Republicans hordes. Does this mean predatory, plundering tribes as Webster defines it?—Journal.

Billy Wood, the San Francisco attorney was in the city yesterday in connection with the water litigation between the mills and the ranchers on the Carson river. The testimony is now all in and fills 500 pages of type written paper.

A protocol has been signed uniting Guatemala, Nicaragua, Salvador and Honduras into one republic, to be known as the Central American Republic. Costa Rica was also represented at the conference, but that Government has declined to sign the protocol.

Evening subject: "The Wedding March."

Everybody welcome.

Francis L. Nash,
Pastor.

The Republican papers are shedding drops of blood because they think the delegates of the Silver Party convention will be furnished passes by the S. P. Co. Dear brethren of the g. o. p., don't let your feelings run away with your common sense. You never cried when the railroad company gave your delegates free passes. So don't whimper now.—Independent.

"Shoo Flies!"

The little lady of the Morning News sits on her tripod and proclaims her views

And when with male opponents she engages

No uncouth language soils her virgin pages.

She never says "you lie!" "By jove!" or "d—d your eyes!"

But gently murmurs to us all, "shoo flies!" "shoo flies!"

Coming Our Way.

London, Aug. 26—There is no doubt that a loan of £1,500,000 will be raised here for China on 4-per cent 20 year bonds. Two-thirds of the loan will be payable to China in silver. Some financiers predict that silver will go to 32d per ounce.

SILVER TO BE THE ISSUE.

Congressman Bland Advocates That Voters Make This Paramount to Everything.

Washington, August 18.—The policy to be pursued in advancing the principles of bimetallicism was outlined at to-day's session of the American Bimetallic League. Speeches were made by several Congressmen and by delegates from various States.

Bland characterized the silver question as a purely practical one and urged that the political battles for the future be fought on the proposition that any change of basis may be put in abeyance until the full restoration of silver is accomplished.

A declaration was adopted recounting the repeal of the silver purchase law establishing a single gold standard which has been followed by a steadily increasing depression, that gold has steadily increased in value. Industries are everywhere paralyzed, labor is unsteady and precarious, business unimproved and debtors bankrupt. It is asserted that there will be no hope of relief until the double standard of 16 to 1 is restored and that the money question is the supreme issue before the country. Voters are urged to make this issue paramount to all other considerations on the election of State Legislatures, Congressmen and President.

It is recommended that a convention be held at some central point in both mining and agricultural States to perfect the work for this end, and that a committee of five be appointed to carry out the plan.

Woman as a Practical Politician.

People who affect to believe that women cannot "do politics" in a practical and winning way, should read the actual occurrence and be convinced that a she politician can give her brothers points in the game, and then win out.

A paper published near Forman, N. D., brings out a dramatic incident in the connection with the nomination by the Republican State Convention of Miss Emma F. Bates of Valley City to be State Superintendent of Schools. Miss Bates had charge of her canvas of the nomination and found formidable opposition in John Devine and Professor J. H. Holland. She was able to sidetrack the latter by making herself solid with the Young Men's Republican League. She then entered into negotiations with Mr. Devine, first demanding unconditional surrender.

This he refused. After further negotiation it is said he agreed to pull off the track, provided she was elected State Superintendent she would make him her deputy and marry him in the bargain. After some deliberation she agreed to do this, provided he would stump the State for her. As he is a powerful speaker Miss Bates is conceded to have made the shrewdest political deal yet known.

Good News for the Ninety-Four.

Word comes from the east that there will soon be enough money to begin the extensive operations calculated upon by the above named company. It is calculated that \$20,000 will have to be raised to start with. There is no doubt that the company means strict business; and there is big money in the proposition if it be carried out according to the plans and specifications drawn up for the work. It will mean considerable help for the town of Dayton. Lyon County Times.

Truth About the Strike.

President Gompers of the Federation of Labor has an able article in the August "North American Review" and "Federationist" concerning the Pullman and A. R. U. strike. It reviews the cause and justifies the strikers. Every man whose capital consists of brains and muscles, and who aims at an honest living, should read these articles. It costs just half as much as a cigar and does not "end in smoke." For sale at Cagwin & Notewares for a nickel.

COAST NEWS.

Oscar Larson, aged six years, while playing at San Rafael wharf fell in the water and was drowned Thursday.

Frank Mitchell, a fire bug, has been sent to Folsom for twelve years. He burned a barn in Lincoln Valley, Sonoma county.

At Healdsburg Thursday a man employed in the cannery severely mutilated the face of a fellow-workman with a carving knife.

A. Ohman, a prominent fruit-grower at Cottonwood, had his left hand torn off while blowing up stumps with giant powder Thursday.

At Sacramento after dark Friday night Chester McMillan, aged eight years, while jumping on and off of moving cars, had both legs cut off by a freight car.

Noah Shanks, a Brownsville, Or., boy, is on the sick list, as might have been expected, from his phenomenal feat of eating at a single sitting seventeen bologna sausages.

The skeleton remains of Lang C. Winston, a former citizen of Pasadena, have been found about twenty miles from Palmdale in the desert. Winston was lost in a snowstorm while out hunting last winter.

At a meeting of ex-employees of the railroad company at Sacramento last night some 200 men organized a company and will endeavor to secure employment in the hydraulic and other mines in neighboring counties.

Professor Campbell of the Lick Observatory has demonstrated with the spectroscope that the planet Mars presents no evidence of having an atmosphere. Professor Holden says if any atmospheric pressure exists it is not as great as on our highest mountains, and thus popular fancies concerning the planet are overthrown.

While T. D. Williams was engaged in killing an old she bear and two half grown cubs on the Long Creek meadows in Washington, last week, a cartridge got fastened in the magazine of his gun. The old bear laid hold of him, and had one leg of his trousers torn off before he could right the gun and dispatch her with a ball through the heart.

Take it Back.

Yesterday a grocer in this city kindly sent us a twenty-pound watermelon and just as we were about to acknowledge the favor with a quarter column notice worth \$8.75, a comp out the fruit open and it was discovered to be too green to eat. If the donor will call Monday with a ripe melon and take the green one away there will be no questions asked. Possibly if the melon is laid out in the sun a few days it will be all right—for some other newspaper office.
